

## Real thermal and acoustic insulation

The application of Expanded Cork Board, in the insulation of double walls, with void, provides and excellent thermal insulation for a long period of time added by an excellent acoustic comfort.

## INSULATION OF EXTERIOR WALLS (WITH AIR VOYD)

1 Expanded Cork Board - ICB    2 Ventilated void    3 Double wall

### Benefits

- Comfort - Thermal insulation and soundproofing
- Dimensional stability of the material
- Natural product (healthier)
- Excellent transpiration capacity
- Effectiveness without time limit
