

## Real thermal and acoustic insulation

The application of Expanded Cork Board, in the insulation of interior walls, in masonry, provides an excellent sound insulation for a long period of time.

## INSULATION OF INTERIOR WALLS (IN MASONRY)

1 Roughcast      2 Expanded Cork Board - ICB      3 Double wall

### Benefits

- Comfort - Sound insulation
- Dimensional stability of the material
- Natural product (healthier)
- Excellent transpiration capacity
- Effectiveness without time limit

### Overhead soundproofing

- 11cm double wall
- 4cm expanded cork board - ICB, in the air void

**RW = 53 dB**
